

## Symptom Screening Checklist

Students or staff should self- assess prior to reporting to school using the screening checklist below. For younger students, parents should complete the assessment.

Have you had close contact (within 6 feet for at least 15 minutes) in the last 14 days with someone diagnosed with COVID-19, or has any health department or health care provider been in contact with you and advised you to quarantine?

If answering yes, the person should not be at school. The person can return 14 days after the last time they had close contact with someone with COVID-19.

- For staff, notify principal/direct supervisor and school nurse or nursing supervisor.
- For students, parent/guardian should notify school nurse.

If answering no, proceed to questions below.

Do you have any of these symptoms?

- Fever in the past 24 hours (greater than 100.4 F)
- Shortness of breath or difficulty breathing
- New loss of taste or smell
- New or worsening cough

If answering yes, the person should not be at school.

- For staff, notify principal/direct supervisor and school nurse or nursing supervisor.
- For students, parent/guardian should notify the school nurse.

Do you have any of these symptoms?

- Sore throat
- Muscle aches
- Chills
- Headache
- Congestion or runny nose
- Diarrhea
- Nausea or vomiting
- Unexplained fatigue

If answering yes to one or more of the above symptoms, please contact the school nurse.

Employee and student COVID 19 status will only be shared with school officials/employees/DHEC staff who have a legitimate reason to know this information.
