## Shooting for the Stars!

### Reading:

We started our reading series, Imagine It. We completed many activities on recognizing our classmate's names. We also learned several rhymes and we reviewed several Nursery Rhymes. One of the first skills that we will be working on is rhyming.

### Writer Workshop

We have created two class books. We were also introduced to our writer folders. We learned this is where we will keep our writings. We have been working on forming the letters in our name correctly.

### Math:

We did some exploration of math materials that we will be using this year. I completed the first nine weeks pre-assessment. These nine weeks, we will be working on recognizing numbers 0-10. We also be working on writing numbers 0-10. Students also have to count a group of objects and write the number correctly. We will also be working on comparing numbers 0 -10. Using the words greater, less and equal.

## All-Star Events

Oct 5- Virtual Curriculum Night link will be Sent

Oct 6-12 Virtual Conferences

Oct 27-Fall picture day

Star-terrific  
Websites!

In math we are starting a unit on patterns.  
This would be great practice.

## From the Teacher

Just like everyone the school is trying to save money on paper and ink. I will be emailing the class newsletter monthly.

### Reminders

Thank you for signing Star Books nightly.

On Friday they let the children check out library books. They are due back **October 9, 2020**. One of the things the children enjoy is the treasure box. If you all have any slightly used toys you would like to donate it would greatly appreciate. It can get expensive trying to keep the supplies in the treasure box.

Please also remind students we need to stay apart and wear our masks over our noses. I am glad the students are getting comfortable with each other however I am trying to keep them safe.
