## **WORD STUDY**

We will be working on a review of long vowel sounds. Students are expected to practice their words each day during class. On Fridays, students will write a dictated sentence using the words we practice throughout the week.

## **IN OUR CLASSROOM:**

**ELA:** We are continuing to examine our reading lives by thinking about our thinking. We will ask and answer questions as we read and continue to set our purpose for reading. We will write a book review and recommendation based on our opinions.

**Math:** We will continue looking at Addition and Subtraction strategies by counting on and counting back on a number line, thinking addition to subtract, and making a 10 to subtract. We should be ready for our first math assessment next week.

**Social Studies:** We will define the characteristics that make responsible citizens and examine the cultural contributions of groups of Americans to our overall American way of life.
